

A HAPPY SPRING TO ALL OF YOU FROM CAROLINA FUN MACHINES

March 2009 Newsletter

NEW CUSTOMER LOUNGE

To improve our communications with you we have added a "Customer Lounge" tab on the left side of our web page. Future newsletters will be placed there for your review along with other information that we feel is important to you, our customer.

GETTING YOUR SCOOTER READY FOR SPRING

Under our new customer lounge tab we have placed an article that covers the things you should do to get your scooter ready for the spring and summer riding season. If you would like for us to help you with this process please give us a call to schedule an appointment. If you are planning to do these things yourself and run into any questions please give us a call.

CAROLINA SCOOTER MEETUP GROUP AND UPCOMING RIDE EVENT

Carolina Fun Machines sponsors the "Carolina Scooter Meetup Group" that has monthly meetings and ride events. We currently have a ride and lunch scheduled for Sunday, March 22, 2009 at 10:30 am. If you are interested in the group, or our upcoming ride and lunch, please visit <http://scooter.meetup.com/286/> to learn more about the group and planned activities. Don't forget to RSVP.

CUSTOMER EXPERIENCE AND COMMENTS

We are also adding a tab on our home page where we can post comments from our customers regarding their experience with us. If you bought a scooter from us, a part, or have just had your scooter in for service please drop us your opinions. Send to sales@carolinafunmachines.com.

THE IMPORTANCE OF FOLLOWING YOUR SCOOTERS SCHEDULED MAINTENANCE SCHEDULE

We know you all have more then you can keep on top of during these trying times in our country. So we understand how you can overlook important maintenance on your scooters. To keep your scooter running at its best and to maintain the 1 year parts and labor warranty it is important that you follow the maintenance schedule provided to you when you picked up your scooter. If you have any questions please give us a call.

NEW SCOOTER MODELS

Lance Powersports has introduced 3 new 250cc models, the Grand Touring 250, the Executive 250 and the Duke Touring 250-2. If you are interested in seeing what they look like please visit our website.

We have also been approved as Charlotte's new dealer for Linhai's line of Aeolus scooters. They offer electric, hybrid, 50cc, 150cc, 200cc, 260cc, 300cc and 400cc gas powered scooters. Yamaha of Japan and Linhai of China established a joint venture back in 2003 to build engines for Yamaha of Japan and to share in Yamaha's manufacturing technology and quality control techniques. The prices are a bit higher than comparable models from Lance Powersports or Znen but you will find that they are a notch or two better in overall quality.

CUSTOMER REFERAL PROGRAM

We also wanted to remind you of our \$50 store credit program for customers who refer a prospect to us that buys a new scooter. It's a great way to get your scooter maintenance or new accessories for free or at a reduced price.

EMAIL LIST AND AUTOMATIC UPDATES

If you would like for us to send you updates as we put them out on the customer lounge please drop us an email. We will add your email to our list. And your email information will not be used for any other purpose.

I hope you have found this quarterly newsletter of interest and I look forward to seeing all of you at one of our future Carolina Scooters Meetup meetings or ride events.

As we enter our prime riding season have fun and **PLEASE** ride safely!
